

752S

Born from the reinterpretation of the concepts of sportiness and elegance that have made the historic brand of Pesaro great, **752S** marks the return of Benelli in the segment of "medium-large" displacement bikes with a hard, pure naked, a guarantee of absolute fun on the road and through the curves. After being presented as a prototype at the Milan Motor Show last year, the new Benelli 750 cc now comes in a definitive version, ready to be launched on the market.

Compact, dynamic, with a concrete, modern design, **752S** is the bike designed to satisfy the instincts of every rider. The sturdy tube trellis frame with steel plates envelops the new Benelli four-stroke 750 cc liquid-cooled twin-cylinder engine. Power and maximum torque are 77 hp at 8500 rpm and 67 Nm at 6500 rpm, for a constant and progressive thrust that will never overwhelm the less experienced motorcyclist. Double overhead camshaft timing, 4 valves per cylinder and electronic fuel injection with double throttle body.

The suspensions consist in a front upside-down Marzocchi fork with 50 mm diameter legs, a guarantee of stability and effectiveness throughout the entire 117 mm travel of the front suspension. On the back there is a swinging arm with central adjustable monoshock in the spring preload with a 45 mm travel. The attention to safety and performance is confirmed by the characteristics of the Brembo braking system, with a double 320 mm diameter semi-floating disc on the front and four-piston calliper, and a 260 mm diameter disc on the back with a single-piston floating calliper. The 17" aluminium alloy rims mount 120/70-17 and 180/55-17 tyres. The tank has 14.5 litres of capacity.

752 S will be available in all Benelli dealerships in the colours white, black and green starting next summer. The price is yet to be determined.
